& productivity

Background

This case study of Vetnique is based on a survey of CloudExtend customers.

The Challenge

The business challenges that led the profiled company to evaluate and ultimately select ExtendInsights for NetSuite:

- Fully manual approach to working with NetSuite data
- Needed solution for managing pricing changes
- Looking to streamline the process for changing data entry points

Vetnique did not evaluate any other solutions before ultimately selecting ExtendInsights for NetSuite.

Use Cases

The key features and functionalities of CloudExtend that the surveyed company uses include:

- Create, edit, read, and delete NetSuite records
- Downloading saved search results
- Uploading new or edited data to NetSuite with instant validation directly from Excel

Results

The surveyed company achieved the following results with CloudExtend:

- Saved up to 20 hours per week with the help of automation
- Improved efficiency and productivity by more than 40%

The organization uses ExtendInsights to significantly improve their NetSuite data auditing capabilities.

The ease of changing records with ExtendInsights without having to do a CSV import has been great. The ability to create templates for month-end close has decreased our close time by days.
