

# Salesforce – SAP Business ByDesign

Integration Application

## Prebuilt integration to synch accounts, opportunities, and sales orders between Salesforce and SAP Business ByDesign

### Embedded business logic

Benefit from the learnings of thousands of customers by using prebuilt flows, settings, and configurations that automate common use cases.

### Fully managed with automatic updates

Managed by Celigo or our partners, so support for new uses cases or updates to APIs are regularly pushed without any downtime.

### Fastest time to business value

Designed for line-of-business users to automate order to fulfillment business processes 100% out of the box without waiting on expensive technical resources.

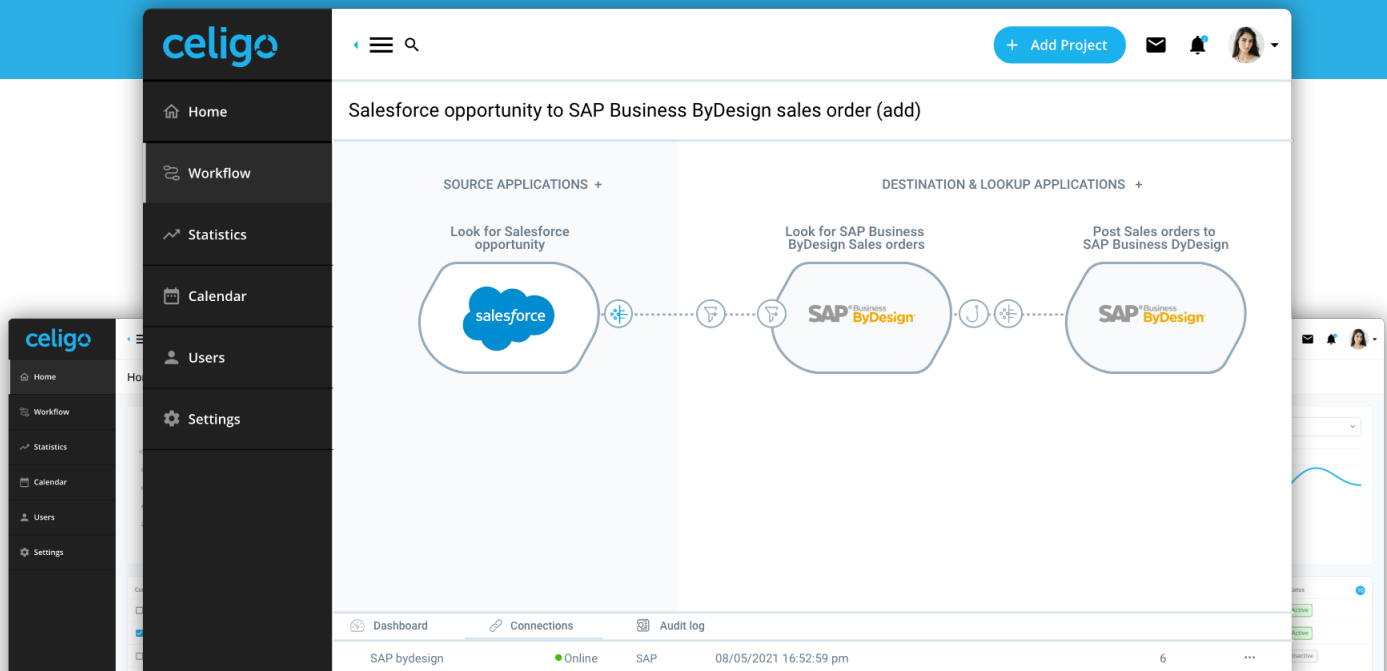

### Future-proof platform extensibility

Built on the Celigo iPaaS, benefit from enterprise grade data security, AI-powered error management and the ability to support custom use cases.

# One platform for end-to-end business process automation across applications

## Built on the **Leading iPaaS Platform** with infinite scalability

Secure, Low-Code, Self-Service

The Celigo integration platform (iPaaS) enables IT and non-IT teams alike to quickly automate business processes end-to-end using proven best practices.

"Celigo was instrumental in helping us fully automate our Quote to Cash process. Automating our transactions from Salesforce prevented us from having to hire an additional five full-time employees. Reducing the need for paper processing has even allowed us to seamlessly transition to a work-from-home policy."
