

# Everything You Need from NetSuite in Your Inbox

extendsync

ExtendSync for NetSuite offers you an intuitive solution for adding emails, calendar events, and file attachments to NetSuite directly from Outlook or Gmail. Eliminate the need to copy and paste emails and give your team instant organizational visibility into your important communications.

## Organizational Transparency

Share important emails, calendar events, and file attachments directly from your mailbox to NetSuite records for a 360-degree view of activity across all internal teams in NetSuite.

## Make Better Business Decision

Create more positive, proactive interactions with customers and partners with the knowledge that all relevant emails, files, and meetings are associated with the relevant NetSuite records.

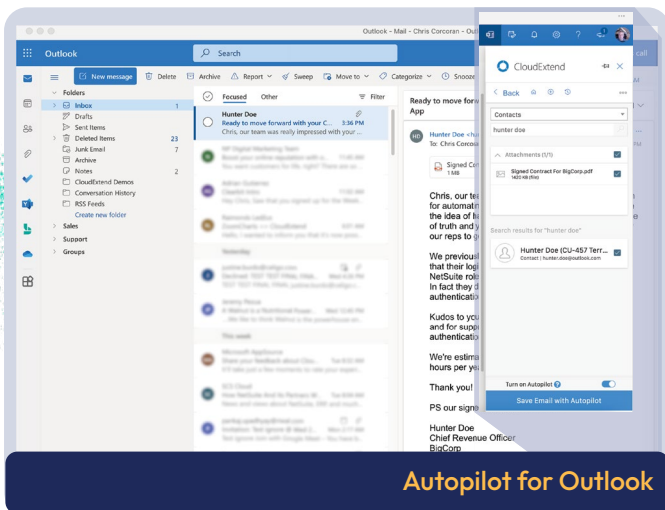

## Innovative Automation with Autopilot

Reduce manual effort by putting emails on Autopilot. All back/forth replies associated with a particular contact or in a thread will be attached to the relevant NetSuite record(s) with no manual effort.

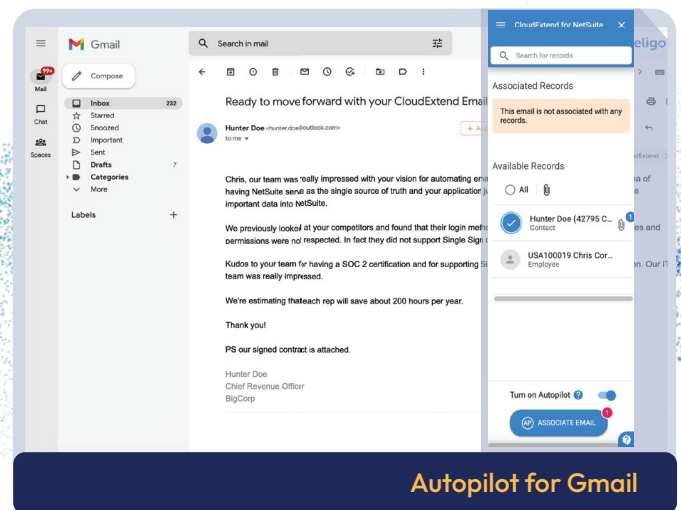

## Save on Storage

Leverage best-of-breed storage systems such as OneDrive for Business, SharePoint, or Google Drive. Associate files and folders with NetSuite records and reduce your storage fees.

Autopilot for Outlook

Autopilot for Gmail

# What ExtendSync Does for You

## Eliminates Information Silos

ExtendSync extends your inbox into NetSuite and gives coworkers a holistic view of important customer activities such as emails and calendar events.

## Increase NetSuite Adoption

By reducing the effort to get important data into NetSuite, all users will benefit from using NetSuite as a single source of truth.

## Reduce Manual Effort

View, create, or edit NetSuite records directly within Outlook or Gmail. Eliminate copying and pasting of emails by attaching them as native NetSuite messages with a single click.

## Stay Secure

ExtendSync is part of NetSuite's Built for NetSuite (BFN) program. Users log in using native 3-step authorization with full support for two-factor authentication and Single Sign On and all NetSuite roles and permissions are respected.

Personal and Enterprise options starting at \$15 per user/per month

The screenshot shows the Oracle NetSuite interface with the 'CloudExtend Files' section open. The interface includes a search bar, an 'Attach' button, and a table of files. The table has columns for Name, Attached, Attached By, File Size, and Open in OneDrive. The files listed are:

Name	Attached	Attached By	File Size	Open in OneDrive
