**Fastest time to business value** Designed for line-of-business users to automate order to fulfillment business processes 100% out of the box without waiting on expensive technical resources.

**Future-proof platform extensibility** Built on the Celigo iPaaS, benefit from enterprise grade data security, Al-powered error management and the ability to support custom use cases.

### One platform serving your data and application integration needs

# Built on the Leading iPaaS Platform with infinite scalability

The Celigo integration platform (iPaaS) enables IT and non-IT teams alike to quickly automate Hubspot processes end-to-end using proven best practices.

Secure, Low-Code, Self-Service

"Before using the Celigo platform, we were spending hours and hours on manual processes and suffering from disconnected data and workflows. Now we can complete an entire automation in a fraction of the time and have a more holistic view of the entire process, enabling us to make more informed business decisions."

Jeremy Vandenberg IT Information Analyst

"I was able to set up our new integration between NetSuite and Hubspot within a day. Creating flows between the applications was super easy!"

"One of the nicest things about Celigo is we can run really large sales and be confident that all the orders will come in without a hiccup. It's not just an out-of-the-box solution. Celigo knows that each customer is specific and customizable. We've saved at least two-and-a-half people and \$90,000, but I'd say it's probably in the neighborhood of over \$200,000."

Chris Peterson Senior Manager of Revenue
